

SOW, GROW, FARM

In the Sow, Grow and Farm project, we will learn about allotments in the United Kingdom and how the government encouraged people to have them to support food rationing during the Second World War. We will learn about food webs and animal life cycles, including how living things are dependent on one another within a habitat. We will investigate the different ways that plants reproduce and will dissect flowering plants to identify the different structures. We will have the opportunity to learn about farming in the United Kingdom and the techniques used in modern farming, including the challenges that farmers face. We will learn about the benefits of eating seasonally and about the pros and cons of importing food. We will also learn about world farming and how the different climate zones affect where different foods can be grown.

Unit focus	Geography
English	Quest story – Perseus and Medusa; Explanation texts; Poetry
Maths	Fractions, decimals, percentages; Perimeter and Area; Statistics; Ratio (Y6); Algebra (Y6); Multiplication and Division (Y5)
Computing	3D drawing; Flow chart programming
PE	Multi sports
RHE	Keeping safe; Rights and Respect
Science	Food chains and webs; Life cycles; Plant reproduction; Growing plants; Modern farming
Geography	Land use in the UK; Allotments; Farming in the UK; Maps; Grid references; Food transportation
History	Dig For Victory!
RE	Christianity – Creation and Salvation
Art and Design	Still life
Design technology	Seasonality
Music	Key and time signatures
French	Local town/village
